CONSEQUENCE OF INACTION

Facility Shut-Down, Attrition
Loss of Patient / Community Trust
Loss of Investor Confidence
Revenue Loss / Customers leaving
Loss of Competitive Edge
Severe Regulatory Citations
Reputation with Industry Peers
Missed Opportunity for Growth
Delayed Trials / Commercialization
You get the idea

While hitting bottom and climbing-out certainly builds grit, there are wiser ways to use your resources!

Let's Do This!

CHALLENGE + OPPORTUNITY

Biotech Resources Group (BRG) focuses on fixing and improving the Clinical and Commercial Manufacturing side of things.

Companies turn to BRG when looking to:

- ✓ Design & Start-Up a GMP Site/Campus
- ✓ Remedy Underperforming & Legacy Assets
- ✓ Audit global CDMO's (capacity increase)
- ✓ Manage a Techno-Economic Assessment
- ✓ De-bottleneck a factory line, ↓ COG's
- ✓ Manage Site Evaluation, Scoring, Award
- ✓ Create/Manage a Master Hiring Plan

Bridging-the-Gap

Whether an opportunity or challenge, the risks linked to inaction are needlessly high. When the GAP between current state and the objective state expands, most outcomes are undesirable (↓):

- ↓ Facility Shut-Down, Attrition
- ↓ Asset Utilization / ↑ COGs
- ↓ Customer/Patient Trust
- ↓ Investor Confidence
- ↓ Revenue / Liquidity / ↑ WACC
- ↓ Competitive Edge /Marketshare
- ↓ Severe Regulatory Citations (link)

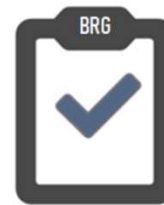

SOLUTION: BRIDGEONE

SITE SELECTION

BIOPROCESS / GMP OPs

QMS / AUDITS

CMC / ANALYTICAL
